About Me

I am a self-motivated full-stack developer with 1 year of experience in React and JavaScript. I am also familiar with backend development. Continual learning and staying up-to-date with new technologies are my passions, as I strive to excel in my field. I thrive in a collaborative team environment and enjoy sharing my knowledge by teaching others. With a background in graphics and experience in managing people and processes, I bring a diverse skill set to the table. My ultimate goal is to contribute my skills and creativity to a team and help create the most innovative product on the market.

Projects

All my projects

All the projects on my web resume were team projects on courses and my own projects. I implemented my entire technology stack and it is constantly updated with new ones.
